Club Fitting

Choosing the right equipment for your game should be as personal as having a new suit tailored to your size. Don't settle for golf clubs that don't fit you. Some manufacturers produce equipment with the claim that technology will improve your game. The fact is: if it doesn't fit your body type and swing style that new club could adversely affect your game.

The Columbia Hills Professional Staff are certified and experienced club fitters. Invest 45 to 90 minutes in a club fitting session with one of our professionals. You will find the experience informational and enjoyable. We stand behind what we sell and will make certain that you are satisfied with any item that you purchase from our golf shop.
